Subject Index

Activated carbon

- Catalytic properties of $\text{Mo}(\text{CO})_6$ supported on activated carbon for ethene homologation 69

Activity

- Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1

Alkane conversion

- Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of $\text{C}_2\text{--C}_4$ alkanes on H-ZSM-5 — Reaction mechanisms 255

Aluminium

- Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1

Ammonia adsorption

- Pyridine synthesis from tetrahydrofurfuryl alcohol over a palladium/ γ -alumina catalyst. I. Behavior of adsorbed ammonia on a palladium/ γ -alumina catalyst 157

Ammonia synthesis

- Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1

Aromatization

- Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of $\text{C}_2\text{--C}_4$ alkanes on H-ZSM-5 — Reaction mechanisms 255

Benzene hydrogenation

- Relationship between reduced nickel and activity for benzene hydrogenation on Ni-USY zeolite catalysts 145

Bimetallic

- X-ray diffraction and electron microscopy studies of Pt-Sn-SiO₂ catalysts 45

Butadiene

- Oxidative dehydrogenation of n-butane to butadiene: effect of different promoters on the performance of V-Mg-O catalysts 29

n-Butane

- Oxidative dehydrogenation of n-butane to butadiene: effect of different promoters on the performance of V-Mg-O catalysts 29

Catalyst characterization (AAS, XRD)

- Deactivation of ruthenium catalysts in continuous glucose hydrogenation 219

Catalyst characterization (adsorption, FT-IR, XPS)

- Relationship between reduced nickel and activity for benzene hydrogenation on Ni-USY zeolite catalysts 145

Catalyst characterization (TPD)

- Characterization of unsupported cupric oxide and cupric oxide/silica catalysts by temperature-programmed desorption of nitrogen oxide 205

Catalyst characterization (XPS, XRD)

- Characterization of high-temperature calcined lanthanum-modified alumina by X-ray photoelectron spectroscopy and X-ray diffraction 103

Catalyst deactivation

- Deactivation of the high temperature water-gas shift catalyst in nonisothermal conditions 185

Catalyst preparation

- Characterization of high-temperature calcined lanthanum-modified alumina by X-ray photoelectron spectroscopy and X-ray diffraction 103

Cerium oxide

- Oxidative dehydrogenation of ethane and the coupling of methane over sodium containing cerium oxides 171

Copper-chromite

- Methyl formate hydrogenolysis for low-temperature methanol synthesis 81

Cracking

- Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of $\text{C}_2\text{--C}_4$ alkanes on H-ZSM-5 — Reaction mechanisms 255

Cupric oxide

- Characterization of unsupported cupric oxide and cupric oxide/silica catalysts by temperature-programmed desorption of nitrogen oxide 205

Cupric oxide/silica

- Characterization of unsupported cupric oxide and cupric oxide/silica catalysts by temperature-programmed desorption of nitrogen oxide

205

Cyclodimers

Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241

Deactivation

Deactivation of ruthenium catalysts in continuous glucose hydrogenation 219

Dehydrogenation

Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of C₂-C₄ alkanes on H-ZSM-5 — Reaction mechanisms 255

Ethane oxidation

Oxidative dehydrogenation of ethane and the coupling of methane over sodium containing cerium oxides 171

Ethene homologation

Catalytic properties of Mo(CO)₆ supported on activated carbon for ethene homologation 69

Ethylbenzene

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Folding structural

Effect of thermal treatment of the support of platinum/palygorskite catalysts on hydrogen chemisorption 231

Fused iron catalysts

Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1

Glucose hydrogenation

Deactivation of ruthenium catalysts in continuous glucose hydrogenation 219

High-silica zeolite ISI

Catalytic properties of high-silica zeolites synthesized in mixtures of water and organic solvent 15

Hydrogen chemisorption

Effect of thermal treatment of the support of platinum/palygorskite catalysts on hydrogen chemisorption 231

Hydrogenolysis

Methyl formate hydrogenolysis for low-temperature methanol synthesis 81

Iron oxide/chromium oxide

Deactivation of the high temperature water-gas shift catalyst in nonisothermal conditions 185

Kinetics

Deactivation of the high temperature water-gas shift catalyst in nonisothermal conditions 185

Lanthanum/alumina

Characterization of high-temperature calcined lanthanum-modified alumina by X-ray photoelectron spectroscopy and X-ray diffraction 103

Lanthanum- β -alumina

Characterization of high-temperature calcined lanthanum-modified alumina by X-ray photoelectron spectroscopy and X-ray diffraction 103

Lanthanum aluminate

Characterization of high-temperature calcined lanthanum-modified alumina by X-ray photoelectron spectroscopy and X-ray diffraction 103

Lead

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Lithium

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Magnesium oxide

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Maleic anhydride

Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241

Metathesis

Catalytic properties of Mo(CO)₆ supported on activated carbon for ethene homologation 69

Methane

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Methane combustion

Catalytic oxidation of methane over palladium supported on alumina. Influence of the oxygen-to-methane ratio 129

Methane oxidation

Oxidative dehydrogenation of ethane and the coupling of methane over sodium containing cerium oxides 171

- Methane reforming reaction**
Catalytic oxidation of methane over palladium supported on alumina. Influence of the oxygen-to-methane ratio 129
- Methanol**
Methyl formate hydrogenolysis for low-temperature methanol synthesis 81
- Methanol/gasoline**
Catalytic properties of high-silica zeolites synthesized in mixtures of water and organic solvent 15
- Methyl formate**
Methyl formate hydrogenolysis for low-temperature methanol synthesis 81
- 3-Methyl-phthalic anhydride**
Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241
- 4-Methyl-phthalic anhydride**
Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241
- Microdiffraction**
X-ray diffraction and electron microscopy studies of Pt-Sn-SiO₂ catalysts 45
- Mo(CO)₆**
Catalytic properties of Mo(CO)₆ supported on activated carbon for ethene homologation 69
- Nitric oxide TPD**
Characterization of unsupported cupric oxide and cupric oxide/silica catalysts by temperature-programmed desorption of nitrogen oxide 205
- NiUSY**
Relationship between reduced nickel and activity for benzene hydrogenation on Ni-USY zeolite catalysts 145
- Organic solvent**
Catalytic properties of high-silica zeolites synthesized in mixtures of water and organic solvent 15
- Oxidative dehydrogenation**
Oxidative dehydrogenation of n-butane to butadiene: effect of different promoters on the performance of V-Mg-O catalysts 29
- Oxidative methylation**
Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115
- Palladium/alumina**
Catalytic oxidation of methane over palladium supported on alumina. Influence of the oxygen-to-methane ratio 129
- Palladium/ γ -alumina**
Pyridine synthesis from tetrahydrofurfuryl alcohol over a palladium/ γ -alumina catalyst. I. Behavior of adsorbed ammonia on a palladium/ γ -alumina catalyst 157
- Palygorskite**
Effect of thermal treatment of the support of platinum/palygorskite catalysts on hydrogen chemisorption 231
- 1,3-Pentadiene**
Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241
- Phthalic anhydride**
Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241
- Platinum**
Effect of thermal treatment of the support of platinum/palygorskite catalysts on hydrogen chemisorption 231
- Platinum/tin**
X-ray diffraction and electron microscopy studies of Pt-Sn-SiO₂ catalysts 45
- Potassium**
Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1
- Pyridine synthesis**
Pyridine synthesis from tetrahydrofurfuryl alcohol over a palladium/ γ -alumina catalyst. I. Behavior of adsorbed ammonia on a palladium/ γ -alumina catalyst 157
- Raney copper**
Methyl formate hydrogenolysis for low-temperature methanol synthesis 81
- Ruthenium/alumina**
Deactivation of ruthenium catalysts in continuous glucose hydrogenation 219
- Selectivity (butadiene)**
Oxidative dehydrogenation of n-butane to butadiene: effect of different promoters on the performance of V-Mg-O catalysts 29

Sodium promotion

Oxidative dehydrogenation of ethane and the coupling of methane over sodium containing cerium oxides 171

Styrene

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Syngas conversion

Methyl formate hydrogenolysis for low-temperature methanol synthesis 81

Syngas/gasoline

Catalytic properties of high-silica zeolites synthesized in mixtures of water and organic solvent 15

Tetrahydrofurfuryl alcohol

Pyridine synthesis from tetrahydrofurfuryl alcohol over a palladium/ γ -alumina catalyst. I. Behavior of adsorbed ammonia on a palladium/ γ -alumina catalyst 157

Texture

Influence of aluminium and potassium on activity and texture of fused iron catalysts for ammonia synthesis 1

Toluene

Oxidative methylation of toluene with methane over Pb/Li/MgO catalysts 115

Transmission electron microscopy

X-ray diffraction and electron microscopy studies of Pt-Sn-SiO₂ catalysts 45

V/Mo/P/Al/Ti oxide

Heterogeneously catalysed gas phase oxidations of 1,3-pentadiene-cyclodimers and of related substances 241

Vanadium-magnesium oxide

Oxidative dehydrogenation of n-butane to butadiene: effect of different promoters on the performance of V-Mg-O catalysts 29

Water-gas shift

Deactivation of the high temperature water-gas shift catalyst in nonisothermal conditions 185

X-ray diffraction

X-ray diffraction and electron microscopy studies of Pt-Sn-SiO₂ catalysts 45

Zeolites

Relationship between reduced nickel and activity for benzene hydrogenation on Ni-USY zeolite catalysts 145

Zeolites

Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of C₂-C₄ alkanes on H-ZSM-5 — Reaction mechanisms 255

ZSM-5

Conversion of light alkanes into aromatic hydrocarbons. VI. Aromatization of C₂-C₄ alkanes on H-ZSM-5 — Reaction mechanisms 255
